Smart Tech CO. LLC

Smart Tech was established in 2004, specialized in developing and distributing Building Management Control system (BMCs) for businesses and end users around the Middle East.

Smart Tech is a leading technology integrator dedicated to providing cutting-edge solutions for residential and commercial environments. With a commitment to innovation and quality, we specialize in a diverse range of services tailored to meet the evolving needs of modern living.

Smart Tech consist a team of technically qualified professionals dedicated to the field of Automation, networking and communications.

We are driven to perform, to partner, to execute. We go about our jobs with a passion for delivering results that exceed our customers' expectations for quality, service, innovation and interaction. We deal with the best and most well-known brands and corporations to ensure the highest standards of quality in our service delivery.

SMARTTECH

Mission

Smart Tech is committed to revolutionizing modern living by providing innovative, integrated technological solutions. We aim to empower individuals and businesses with cutting-edge, reliable, and customizable systems that enhance convenience, security, and efficiency in everyday life.

Vision

To be the leading technology integrator, pioneering the evolution of smart environments. Smart Tech envisions a future where technology seamlessly integrates into daily life, creating safer, smarter, and more sustainable spaces. Our goal is to consistently innovate and set new benchmarks in delivering unparalleled technological solutions.

“Always looking forward for your future and your dreams, to move on with the technology.”

SMARTTECH

OUR SERVICES

Smart Tech is a technology integrator and solution provider with an outstanding portfolio of products, services, and solutions for infrastructure technology for Residentials, Buildings, and Offices:

Building Management (We can control -
Light Music, AC, Curtain & Security)

Safety and Security System

-CCTV, Access Control, Intercom

Network Solutions: Wireless Solutions,
Network Security, IPTV/SMATV

Parking Management System (Gate
Barrier System)

Solar & Energy Saving System

Installation & Integration: Structured
Cabling (Data, Voice and video)

**“Choose Your
Way There - The
choices you
make today are
the life you’ll
live tomorrow.”**

SMARTTECH

Building Management System

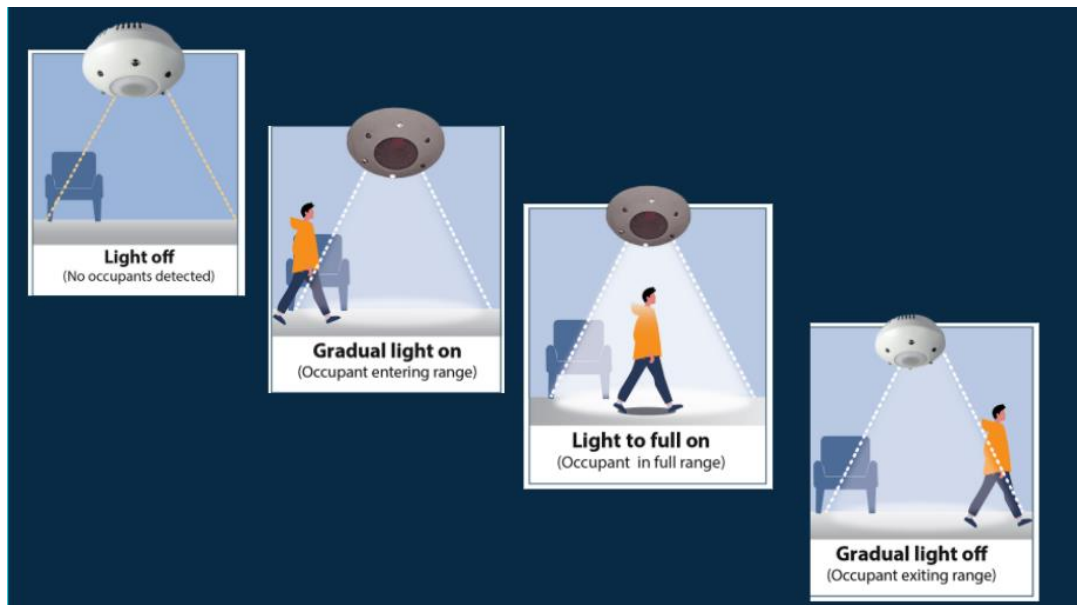

Smart Tech provides centralized control and monitoring of systems to ensure a building's efficient operation, comfort, and security.

Smart Tech offers Tailored smart solutions designed for convenience and efficiency. Integration of smart devices and systems to create automated living spaces. Customized automation solutions for individual preferences.

SMARTTECH

Lighting Control by Sensor

Whether in commercial, industrial, or residential settings, this system offers a smart and effective way to manage lighting while optimizing energy usage.

Using light control through sensors not only promotes energy efficiency and cost savings but also enhances convenience, safety, and environmental responsibility.

Light Automation

SMARTTECH

Theatre Light & Sound Control System

Smart Tech uses its vast expertise in high-end light and audio/video design to optimize the sound and picture quality in any room. We work with you to design and configure a system that takes into account the size and shape of your room, its acoustic and light qualities, as well as interior decor, resulting in a truly exceptional theatre experience. Using our premium audio, video and control brands, in addition to our exclusive line of theatre furniture, we ensure that stage will always look as good as it sound.

Hotel Room Management

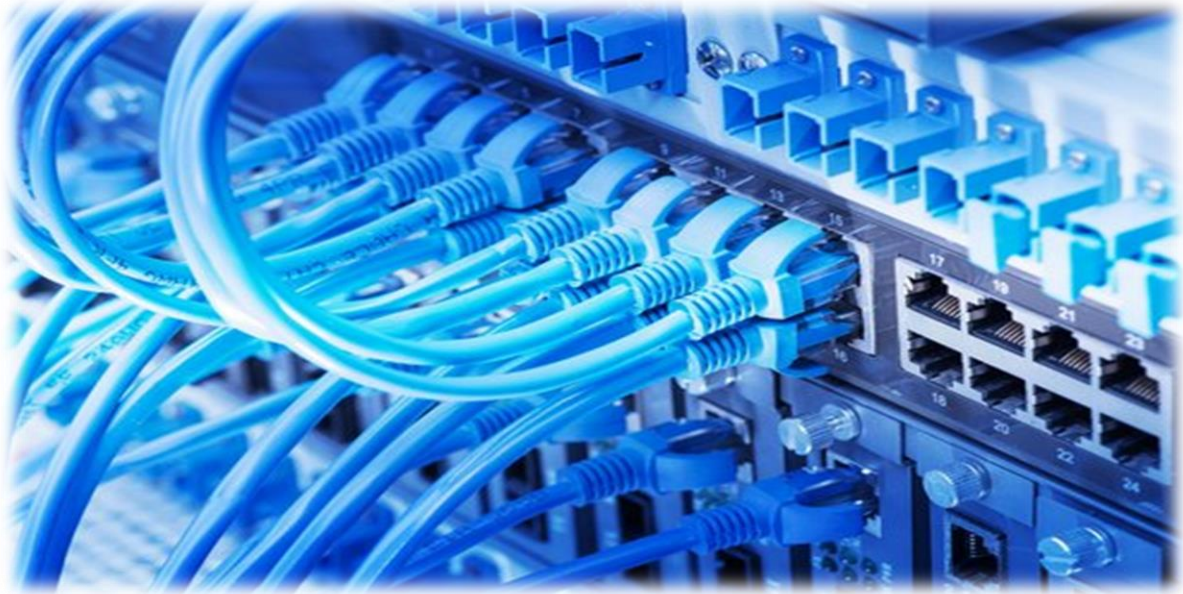

Today's generations are more luxurious and focused more on convenience than ever before. **Smart Tech** hotel room control system uses modular design EIB bus network, with energy conservation, efficiency, offering personalized services to enhance the image and hotel management.

In **Smart Tech** we designed to bring a new sense of control and convenience to other types of properties you may own. We provide you with the most recent technologies and keep you up to date with the latest trends to make sure that both your present and future needs are satisfied.

SMARTTECH

Network Solution

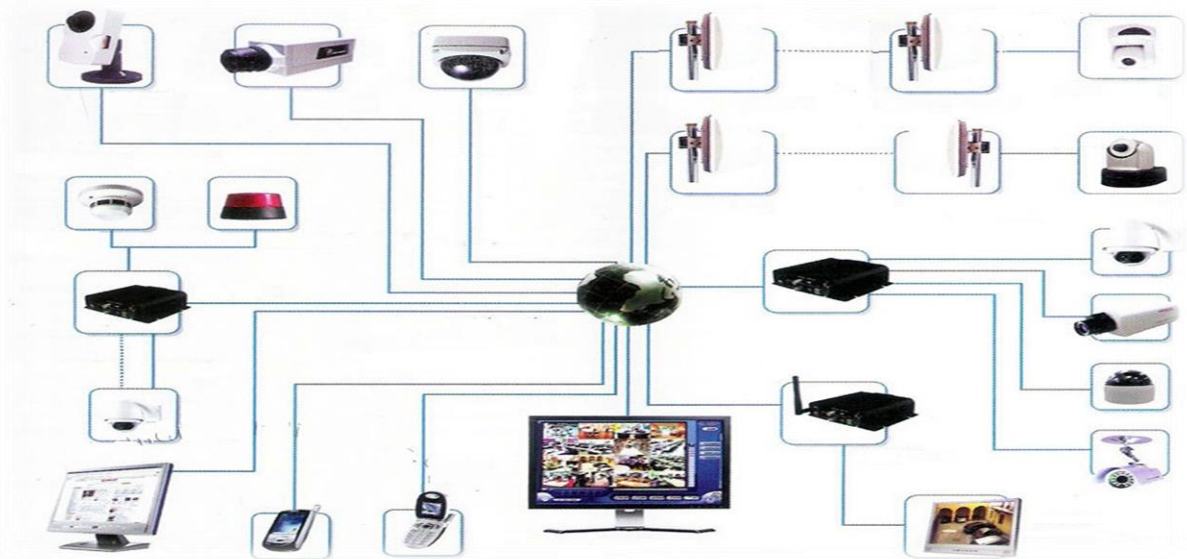

Structured Cabling: Your networking assets are only as powerful as the cables you use to connect them. **Smart Tech** offers a complete network solution from planning, design and until completion with a variety of cables and accessories to meet all your networking needs. Top quality components ensures top performance for your network. Quality and choice are always our top priority. That's why **Smart Tech** offers all of the components required to interconnect your mission critical networking and telecommunication assets for maximum performance, quality and reliability including: CAT6 Cable, Internal/External Black Fiber Cable, Tight Buffered Fiber, Patch Panel, Networking Cables and Accessories.

SMARTTECH

Security and Surveillance System

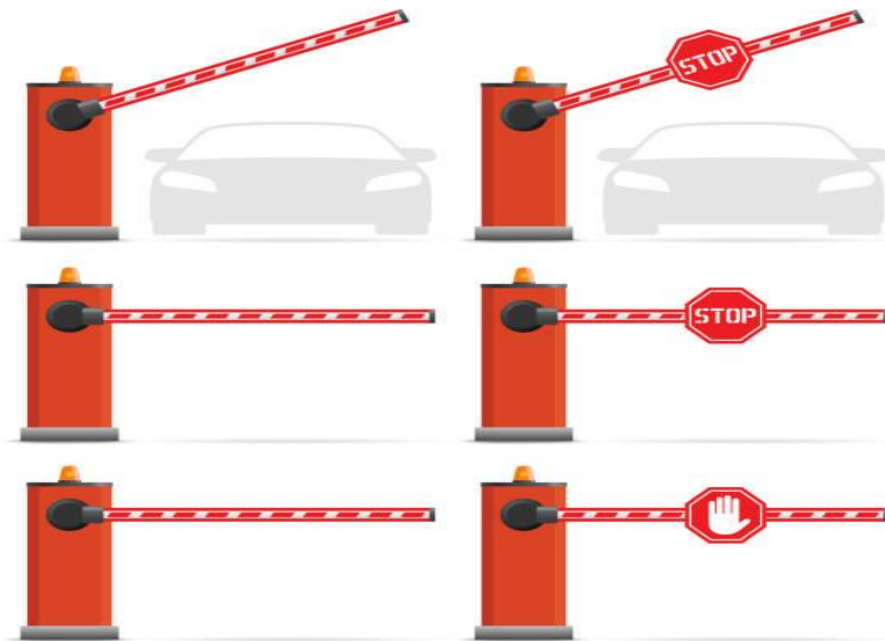

Closed Circuit Television (CCTV) System: Nowadays, the demand for CCTV has been on the rise. Closed-circuit television camera (CCTV) plays a vital role in security and surveillance reasons. They are strategically placed to monitor in a private way what is happening in and around home.

Smart Tech offers a complete surveillance solutions for various settings to your home, office and building premises with qualified and expert technician from planning, design until execution. **Smart Tech** collaborated with several trusted and accredited brands to ensure utmost level of security is delivered.

SMARTTECH

GATE BARRIER SYSTEM

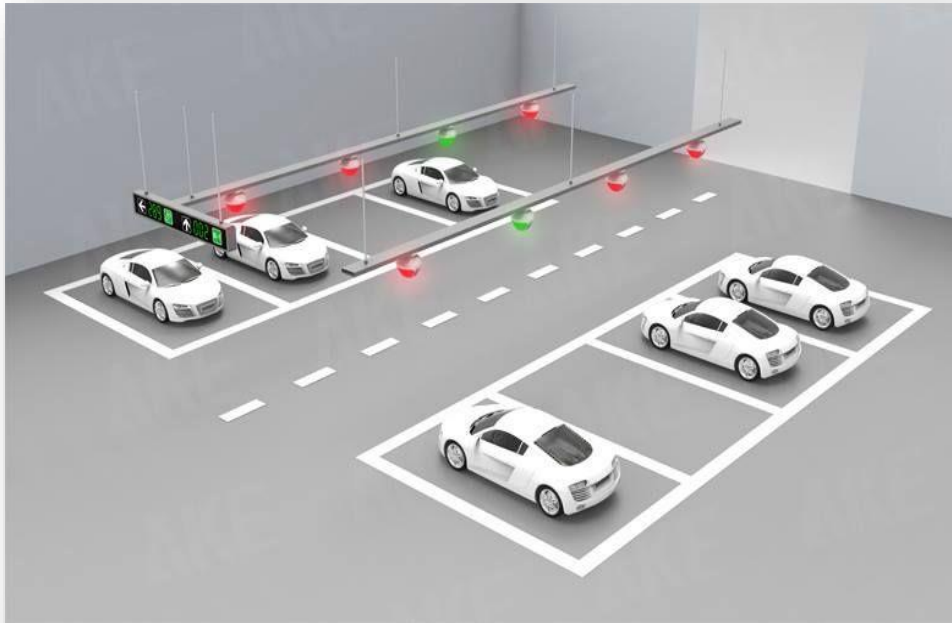

Gate barrier systems play a crucial role in controlling access and ensuring security for both residential and commercial spaces. **Smart Tech** provides an effective solution for managing vehicular access and contribute to a safer and more organized environment Having a security gate barriers and keeping it well maintained is the improved lifespan of your security solution,

SMARTTECH

SMART PARKING SOLUTION

Smart Tech provides Smart parking solutions to detect parking space availability in real-time, helping to optimize on-street parking in cities and in parking garages or surface parking lots such as those in shopping malls, train stations, corporate campuses, and more.

SOLAR & ENERGY SAVING

SMARTTECH

At **SmartTech** we are committed to revolutionizing the way we generate and consume energy by harnessing the immense power of the sun. As a leading provider of solar solutions, we specialize in designing, installing, and maintaining state-of-the-art solar systems for a sustainable and energy-efficient future.

In an era where environmental concerns and energy independence are paramount, our solar systems offer a beacon of hope and innovation. By seamlessly integrating cutting-edge technology with a profound commitment to sustainability, we empower businesses and individuals to make a meaningful impact on the planet while reaping substantial economic benefits.

DIGITAL SIGNAGE

With the advent of modern technology, LED Screen delivers a perfect way to advertise, inform or display any chosen content outdoors helping to catch audience or passerby's attention. Due to its high brightness specification, LED screen offers a fantastic image to these audiences even in low visibility, serving as a great form of advertising a product, service or a brand in a passive and stylish way. **Smart Tech** offers a complete solution from planning, design until completion. We offers customized design suitable to your needs and requirements.
